

ASSEMBLY INSTRUCTION LIT FL2202BK

FOLLOW THE STEPS BELOW:

1. Open the package and find the three-section light pole.
2. Connect the light poles as shown in the picture.
(Turn clockwise and lighten).
3. Then insert the wire plug of the round hole into the socket of the round hole, and finally connect the power supply.

Note:

1. All three light poles need to be tightened and pay attention to whether the light poles are stable.
2. When tightened the pole, pay attention to whether the power cord inside the pole is deformed
